

Entrepreneurship & Business Development Fellowships

Leading the Business of Life Sciences

ENTREPRENEURSHIP FELLOW PROGRAM

Our Entrepreneurship Fellow Program is a 2-year, full-time interdisciplinary leadership program designed to support and develop future leaders in life sciences commercialization. The program provides innovative scientists with the skills and relationships required for managing successful early-stage life sciences companies. During the 2-year program, fellows will have the opportunity to:

- Gain real-world experience in entrepreneurship and life sciences development
- Manage R&D activities, intellectual property, business development, regulatory affairs, and financing of one or more of Fannin's therapeutics or device portfolio companies
- Participate in our Fellow Development Program designed to complement the experiential learning activities
- Build a network of biomedical entrepreneurs and other industry professionals
- Attend industry workshops and conferences

REQUIREMENTS

For both fellowships, applicants must have experience in life sciences research, clinical care, or life sciences commercialization and be authorized to work lawfully in the United States for the duration of the fellowship. A doctoral degree or equivalent is highly desirable.

BUSINESS DEVELOPMENT FELLOW PROGRAM

Our Business Development Fellow Program is a 2-year, full-time program designed to equip individuals with the skills and relationships required to establish a business development career in industry, with biomedical start-ups, or in technology transfer. During the 2-year program, fellows will have the opportunity to:

- Engage with and develop relationships with BD professionals within academic technology transfer offices, and pharma, biotech and device companies across the world
- Participate in business development and partnering meetings representing Fannin and our portfolio companies
- Identify researchers at Houston academic institutions working on areas of interest to potential partners

All fellowship positions receive compensation based on the NIH postdoctoral fellow stipend levels.

TO APPLY: Submit a 2-page CV/resume and a 1-page statement of interest to Serena Miggins at serena@fannininnovation.com. Please put either "2018 Entrepreneurship Fellow Application" or "2018 Business Development Fellow Application" as email subject.

DEADLINES: January 15, 2018 for Spring/Fall start
April 16, 2018 for Fall start
