

JOIN US AS AN ENTREPRENEURSHIP FELLOW

ADVANCE YOUR CAREER IN DEVELOPING NOVEL THERAPEUTICS AND MEDICAL DEVICES THAT WILL IMPROVE PATIENT CARE

REQUIREMENTS:

Passion for drug or medical device development

PhD, MD, or master's degree in life science, medicine, health, engineering, or a related field

Willingness to roll up your sleeves in an intense, but supportive start-up environment

Please submit a 1-2 page resume & a one page statement of interest (as a single PDF file) to Ms. Serena Miggins at serena@fannininnovation.com subject line "Entrepreneurship Fellow".

Positions are located in Houston, TX.
All applicants must be authorized to work lawfully in the United States without sponsorship for the duration of the fellowship.

DURING THE TWO-YEAR FELLOWSHIP PROGRAM YOU WILL:

- Participate in biotech development as you contribute to a variety of projects across Fannin's therapeutic and device portfolio
- Gain entrepreneurial experience by focusing on all aspects of commercializing technologies
- Build a network of biomedical entrepreneurs in the active Houston ecosystem including key opinion leaders, industry professionals, and top university leaders
